

POINTS OF PRIDE WITHIN UB'S

# Locations and Facilities

The University at Buffalo is the state's largest and most comprehensive public university. It is spread across three campuses and a wide array of research institutes, centers, and laboratories.

## DOWNTOWN CAMPUS

The New York State Center of Excellence in Bioinformatics and Life Sciences (CoE) is the anchor of UB's burgeoning Downtown Campus. With research partners Roswell Park Cancer Institute and Hauptman-Woodward Medical Research Institute, the CoE is creating a hub of life sciences innovation.

### NORTH CAMPUS

- > 1,192 acres
- > 141 buildings (6,655,720 sq. ft.)
- > 10 residence halls
- > 5 apartment complexes

### SOUTH CAMPUS

- > 154 acres
- > 52 buildings (3,074,159 sq. ft.)
- > 6 residence halls

### DOWNTOWN CAMPUS

- > 43 buildings including shared and leased space (588,506 sq. ft.)

### TEACHING HOSPITALS

- > Erie County Medical Center
- > Roswell Park Cancer Institute
- > Veterans Affairs Western New York Healthcare Systems

### LIBRARY LOCATIONS

- > North Campus: Law Library, Lockwood Memorial Library, Multimedia Center, Music Library, Poetry Collection, Rare Books, Science and Engineering Library, Undergraduate Library, University Archives
- > South Campus: Architecture and Planning Library, Health Sciences Library

## NORTH CAMPUS

UB's bustling North Campus, where most of the university's core academic programs are offered, is located in suburban Amherst. Opened in the early 1970s, the North Campus currently has more than 100 buildings and more on the way, including ongoing construction of new apartment-style student housing, as well as state-of-the-art academic buildings.

**TOP RESEARCH**

The units comprising UB Libraries collectively form a major academic research library that is ranked within the top 60 research libraries in North America.

## SOUTH CAMPUS

The picturesque South Campus, located three miles from the North Campus in a residential section of Buffalo, was the university's home for much of the twentieth century. Ivy-covered buildings and a traditional bell tower complement new research and teaching facilities. The schools of Architecture and Planning, Medicine and Biomedical Sciences, Dental Medicine, Public Health and Health Professions, and Nursing are headquartered on the South Campus.

## Community Outreach

### REGIONAL CULTURE

UB is the cultural center of the region, renowned for our performing arts, such as theater, dance, and music, as well as extensive gallery holdings and visual arts expertise. UB's venues for arts and culture include the Center for the Arts, Lippe Concert Hall in Slee Hall, and UB Art Galleries, all located on North Campus.

### RESEARCH FACILITIES

The University at Buffalo pursues research and scholarly activity in more than 100 academic departments and programs. UB's expansive list of cross-disciplinary research centers ranges from the Gender Institute to the Structural Biology Center, Institute for the Study of Law and Urban Justice, and many more.

### SUPERCOMPUTING

UB's Center for Computational Research is one of the world's leading academic supercomputing and visualization centers, supporting leading-edge research in such diverse areas as bioinformatics, high-energy physics, aerospace engineering, volcanology, architecture, and computer animation.
